

Folks,

Please note Husky Travel Centre Restaurants across Canada have been closed since the first of the week. Take out is available at most sites, but may have adjusted or limited hours vs c-store hours.

Our restaurants in Hinton and Medicine Hat are shut down at this time without take-out service due to not enough demand to support the opening.

As you know Ontario and Quebec have closed non-essential services, however this does not impact our facilities.

I will continue to update you as things change going forward.

Visit our website for more information on locations, services and programs.
