Subject: Pilot Flying J status update

To our valued customers:

We continue to be amazed and thankful to work with each of you on the frontline of this crisis.

Pilot Flying J wants to take this opportunity to update you on some key points of interest.

- **All of our travel centers and food operations are open and ready to serve your drivers.**
 - Nothing is more important to us than the safety of your professional drivers and our team members.
 - Our top priority remains keeping our 780 travel centers and food operations open and clean to serve your drivers and fuel your trucks.
 - We continue to sanitize all food contact surfaces, pumps, pin pads, laundry rooms, showers and other commonly used surfaces with CDC approved disinfectants every 4 hours or as needed.
- **Our fuel supply remains strong and our infrastructure is operational to continue to supply all of our travel centers with diesel fuel.**
 - All 30 terminals that we own, operate or have exclusive rights to remain operational.
 - Our fleet of 1,500 drivers and 750 trucks remain healthy and committed to move fuel from terminals to stores.
 - We have over 500MM gallons of fuel storage to further enhance our security of supply
- **Our commitment to thank professional drivers continues with a new loyalty program for them beginning on April 1st. Our hope with this new program is that drivers will be able to use these points to save more money while they are away from their families and serving our country.**

- With every 75-gallon fill, drivers will earn an extra half point (0.5) for their next fuel transaction.
- In just six fills, drivers will be able to earn 4 points per gallon on their transaction.

If you have any questions or needs this week, please contact your Pilot Flying J sales representative or credit representative.

We appreciate every mile ran and every load hauled. The trucking industry is bringing business and families the things they need to get through these very difficult times.

Sincerely,

David Hughes
